## Aims and Scope

The *Journal of African Earth Sciences* is an international interdisciplinary journal devoted to all aspects of research related to the African continent and neighbouring regions. Papers incorporating the results of research on regional geology of the African cratons and mobile belts, economic geology, geochemistry, geophysics, structure, analysis of sedimentary basins and Quaternary geology are featured.

In addition the journal will include "Communications" i.e. short articles announcing some aspect of new research, including field reports, new data or research in progress. "Letters" and "Comments" on controversial topics and "Book Reviews" are also invited.

*Publishing and Advertising Offices.* Elsevier Science Ltd, The Boulevard, Langford Lane, Kidlington, Oxford OX5 1GB, U.K. Tel. (01865) 843000. Elsevier Science Inc., 660 White Plains Road, Tarrytown, NY 10591-5153, U.S.A. All subscription enquiries should be addressed to: The Subscriptions Fulfilment Manager, Subscriptions Dept., Elsevier Science Ltd, The Boulevard, Langford Lane, Kidlington, Oxford OX5 1GB, U.K. Annual Institutional Subscription Rates (1995): North, Central and South America, U.S.$723.00, Rest of World £485.00. Associated personal subscription rates are available on request for those whose institutions are library subscribers. Sterling prices exclude VAT. Non-VAT registered customers in the European Community will be charged the appropriate VAT in addition to the price listed.
